

PACIFIC COAST.

More Smallpox in San Francisco.

THE MASONS' VOYAGE ABROAD.

Rumored Line of Steamers from San Diego to Honolulu—Decision for Los Angeles.

Associated Press Dispatches to the HERALD. SAN FRANCISCO, May 24.—A quarantine officer while searching among the Chinese on board the quarantined steamship Gaelic this afternoon, discovered a fresh case of smallpox. He immediately informed the health officer, who removed the patient to the pest house. This development of a new case of the disease will prevent the departure of 1110 Chinese who are in transit, at least two weeks.

SAN DIEGO OCEAN STEAMERS.

Hurons of a Line to Be Established to Honolulu.

SAN FRANCISCO, May 24.—A company is said to be forming in San Diego to establish a line of steamers between that point and Honolulu. According to the reports that are current in this city, the promoters of the enterprise will have the assistance of the Atchafalaya, Topka and Santa Fe Railway, that company expecting to secure a part of the through passenger travel from the Hawaiian Islands to the East, and guaranteeing importers better time than is now made by the Oceanic Company and the Southern Pacific.

DECISION FOR LOS ANGELES.

Moore vs. The City—The Latter Not Held Responsible.

SAN FRANCISCO, May 24.—An appeal for a new trial in the case of Alfred Moore against the city of Los Angeles has been denied by the Supreme Justice. The suit was for damages sustained to property by the overflow of the Los Angeles river, during the great flood there last year. The city, however, held that it is not responsible for floods (although it does control the right to convert water) as they are apt to occur at any time.

S. P. SURVEY TO SAN DIEGO.

The Engineers Have Found a Route and Got Through.

SAN DIEGO, May 24.—A party of about fourteen Southern Pacific surveyors arrived in this city last night, in charge of C. R. Rockford, assistant engineer. Mr. Rockford stated this afternoon that he had directed the survey to be made from Oceanside to San Diego, and that it was now completed.

DECISION ON RIPARIANISM.

The Judge Holds That All May Take It, If Enough.

VISALIA, Cal., May 24.—To-day, Judge Cross, after hearing testimony as to the volume of water flowing in Kings River, dismissed the contempt proceedings against the Fowler-Swift Canal Company and the Centerville and Kingsburg Ditch Company. The effect of this ruling is that the ditch companies can divert the water when there is enough of it in the river for all.

NEW SMUGGLING SCHEME.

Coal and Lumber Ships Used in Chinese Illicit Traffic.

SAN FRANCISCO, May 24.—The Chinese opium smugglers have resorted to a new method of violating the Customs laws. It is believed that large quantities of opium are taken to Southern California ports, where they are loaded on lumber and coal ships from Victoria.

Passage Amendment No. Three.

SAN FRANCISCO, May 24.—Amendment No. 3 to the Constitution of the State, contrary to all general expectation, has been carried by a majority of 3535. No returns have been received from the counties of Alpine, Del Norte, Fresno, San Luis Obispo, Santa Barbara and Trinity, some of which held no elections. The secretary of State will not wait any longer for further possible returns on this amendment. The amendment was in reference to charters for cities over 10,000 in population.

Purifying the Wine.

SAN FRANCISCO, May 24.—Professor Reising, State Analyst, is determining the purity of wines placed on the market with pure wine stamps. Makers who wish to have their wines examined for analysis can forward samples and requisition will be made on the analyst for the work. By provision of the act of the Legislature, only twelve days remain in which adulterated wine may be legitimately sold.

Fire and Loss at Lacomber.

PORTLAND, Ogn., May 24.—The flour and sawmill owned by George Barr, at Lacomber, W. T., was burned on Saturday night. The loss is five thousand dollars, no insurance. The fire was caused by cinders lodging in the moss on the roof.

No Habeas Corpus for Hope.

SAN FRANCISCO, May 24.—Judge Toney this morning denied the writ of habeas corpus in the case of Jimmy Hope, the famous burglar, and remanded him to the custody of Parsons and Rogers, the New York detectives. Hope will probably be taken East to-morrow.

Criminal Assault.

NAPA, Cal., May 24.—Yesterday near Yountville, a man named Springfield, attempted a criminal assault upon Mrs. McKivier, at Cotter's ranch. The assailant was caught and locked in jail. There is some talk of lynching.

A PHOENIX PROJECT.

Shorb and Associates Form a Development Company.

PHOENIX, A. T., May 24.—The Arizona Improvement Company filed articles of incorporation yesterday. The incorporators are J. De Barth Shorb, Frederick W. Shanon, William Christy and Clark Churchill. The principal place of business will be Phoenix, Arizona. The business of the company, according to the articles of incorporation, includes the acquiring and taking in a lawful manner of water and lands in almost every possible way, the handling of almost all kinds of personal property, real and mixed, the purchase of capital stock, franchise and books of the corporations, erecting, maintaining and operating all electrical apparatus for lighting purposes, driving machinery, etc., carrying on the business of banking and acting as common carriers. The capital stock of the company is placed at \$3,000,000, in 30,000 shares. The company represents leading capitalists of San Francisco, Chicago, Los Angeles and this Territory. The Board of Directors organized with the following officers: J. De Barth Shorb, President; A. Murphy, First Vice-President; F. A. Shanon, Second Vice-President; Clark Churchill, Third Vice-President; Wm. Christy, General Manager; C. G. Churchill, General Solicitor; W. D. Fulwiler, Secretary. The Valley Bank of Phoenix, is the depository.

DEATH IN A SHAFT.

A former resident of Los Angeles accidentally dies in Arizona. TUCSON, May 24.—Cyrus B. Tannehill, formerly of Los Angeles county, and for the past eight years a resident of Globe, by a fall of 150 feet in the shaft of the Howara mine.

Hong Di's Doubtful Story.

SACRAMENTO, May 24.—An Oroville special to the Bee says: Many people doubt Hong Di's story of intimacy between Weaver and Mrs. Billiou. The Chinaman is very sick in prison, owing to the fact that he went several days without food, and now that he has recovered the people there have about decided to let him take his course. The case will be rushed through court.

Assets of Luis Hartman.

PORTLAND, Ogn., May 24.—Levi Strauss, the assignee of the claims of various San Francisco firms, commenced today in State Circuit Court, to-day, against Luis Hartman, a dry goods merchant, recently closed by attachment, to recover \$16,637. The total liabilities of Hartman amount to about \$36,000.

The New Market for Silver.

It is just possible that Mr. Kimball, the director of the mint at Washington, does not know everything that there is to be known about silver. He says that the plan of listing silver certificates on the New York stock exchange, and of dealing in silver as brokers' deal in stocks, bonds, wheat, cotton, and petroleum, will not work, because the price of silver is fixed in London and not in New York. Might one inquire why London, which produces no silver, and consumes next to none, which is merely a place through which silver passes in transit, should make the price, instead of the commercial center of the country which is the largest producer and consumer of silver in the world? It would be interesting to have Mr. Kimball's answer to this question. In the meantime, we may very respectfully suggest that London has heretofore made the price of silver, and that it has been the habit of Mexico and South America to ship their silver to that port, and likewise because a great consumer of silver—British India—has drawn its bullion supplies from the same port. It became the controlling market by accident, and now that the price of silver concerns this country much more largely than Great Britain, there is no good reason why it should not be represented by our chief commercial city.

The mere fact of listing silver certificates on the New York Stock Exchange would make New York the controlling market, because it would be an open market in which buyer and seller, bull and bear, would meet openly, on equal terms, and the price would be fixed by supply and demand, instead of being made as now, by the manipulation of a few bankers and brokers in the city of London. The time was when English cities controlled the price of American wheat, cotton and provisions; now the price of these commodities are fixed by exchange in New York, and European quotations merely exercise the influence which distant markets always exert on each other. If the New York bankers can manage to have silver bullion represented on the market by certificates, silver on the mint or perhaps what might be better, through the agency of a trust, as is the case with petroleum at present, the London quotation of silver will cease to be of any consequence; it will be the New York quotation that will be the standard to see. The sales of Mexican dollars or bullion in London, and of India Council bills, would be predicted on the Wall street quotations of that day.

It is singular that this solution of a long question has not occurred to some one before. The effect of speculative transactions in silver cannot be but to advance the price. The margin for profit on short sales at present prices is so small, and the margin for profit on purchases for the rise to large, no prudent operator would sell at 43½d when the quotations only a few years ago was 60d. It would only be a question of time when the ounce would be worth over 50d in London, and might, under the influence of speculation, be advanced in this country to the prices of 1878-81, say \$1.15 to \$1.18. The effect of this would be to end the controversy about the silver dollar. The West could not but be satisfied, and the East would have no excuse for complaining if the gold value of the silver dollar was about the same as it was when the present ratio between gold and silver was adjusted. The gold monetarists would find their vocation gone.

The effect of an advance of ten or fifteen cents an ounce in the price of silver on the prosperity of this coast it is unnecessary to enlarge. Our product of silver in this State is steadily increasing. It is probably not now less than \$5,000,000 a year. What the production of the Washoe mines will be this year it is difficult to say, but good authorities predict that it will not fall short of \$15,000,000, of which one-half is silver. To this must be added the product of Arizona. Altogether we may count on a yield of not less than \$14,000,000 in 1887. Ten cents an ounce on this would be something like a million and a half clean gain. If the new departure is to lead to this result, this section of the country will be pleased to have it tried. —[S. F. Call.]

Garland Not Ambitious for Further Office.

MR. O'BRIEN INTERVIEWED.

Decision in Bell Telephone Case Suspended in Patent Office. Drilling at National Camp.

Associated Press Dispatches to the HERALD.

WASHINGTON, May 24.—Attorney General Garland to-day talked freely with a reporter of the Associated Press concerning his supposed candidacy for the vacant position on the Supreme bench. After saying, "I do not want the place and would not take it if offered me," Garland said: "After his last reelection to the Senate he formed a resolution to retire from public life and public place, and that at the end of his term, which will expire with the close of this administration, he has so shaped his affairs as to carry out this resolution."

O'BRIEN INTERVIEWED.

Denounces Statements Made Concerning Recent Affairs.

HAMILTON, May 24.—The Hamilton Spectator, in its account of what occurred last night, asserts that the shots were fired from O'Brien's carriage before the attacking crowd touched a trigger. Speaking of this matter, O'Brien said it was the most malignant statement yet made.

He was questioned thus: "In your opinion now, will this statement affect the remainder of your tour?" He replied: "So far as it relates to the Canadian cities which I have yet to visit, it may have a most dangerous and alarming result. It must be written with some purpose of inviting an attack on me in Montreal. I feel perfectly at ease though."

THE OLD BELL TELEPHONE.

An Examination Had in the Patent Office.

WASHINGTON, May 24.—Principal Examiner Brown, of the Division of Electricity in the Patent Office, to-day heard an argument on behalf of Professor A. Graham Bell, in opposition to the application of Professor Gray, for permission to amend his original application for patent in the case of Bell vs. Gray, Edison, McDonough, et al., upon which a decision adverse to Gray was rendered, in 1879.

Reuben Conkling and James J. Storow, of New York, appeared for Bell, and Cay Yung, of Washington City, appeared for Gray. It is stated that if the application is granted, the amendment will so broaden the scope of Gray's invention as to result in a new interference case in which the performance, in case in which, in 1879, Bell was declared to be the prior inventor. The decision was reserved.

NATIONAL DRILLING.

Display of Tactics and Weather Evolutions.

WASHINGTON, May 24.—A competitive drill of the Infantry began a few minutes past 10 o'clock to-day. The competing companies were limited in number to twenty-four men each, with three officers and two guides. The program of maneuvers was to give each company command, one hour before the time allotted for the corps appearance. Twenty minutes were allotted to each company to comply in its program.

EXPERT TACTICS.

An Eighth separate Company, of New York, and the "Seleg Citizens Corps of Rochester" appeared and succeeded toward the end of the performance, in getting into convenient eye-shot of the spectators. Its fine appearance and excellent practice, especially in Company firing, were matters of general comment. A number of Western companies also made a fine appearance, and were well applauded for their interest in the performance of the Keck Zouaves of Johnstown, N. Y. Their skirmish and bayonet drills were marvels of precision, while their unalloyed evolutions in close ranks rivaled the spectacular performances of the stage.

A HURRICANE HURRIES THEM IN.

A furious thunder and wind storm came up about 4 o'clock and put an end to the proceedings, and the crowd scattered at once. The roof was blown off from a large part of the grandstand, and the canvas racks and light house of "Pyroms" were tripped over and scattered.

LATEST ABOUT O'BRIEN.

He Receives a Mysterious and Dangerous Letter.

NIAGARA FALLS, May 24.—William O'Brien arrived here this evening from Hamilton, Ontario, on his way to Montreal. To-day in Hamilton the following letter was handed him: It was posted in East Syracuse, N. Y., May 19, and has traveled all the way to where Mr. O'Brien had visited, reaching him at Hamilton, and arriving there on Friday night.

"EAST SYRACUSE, N. Y., May 18, 1887.—A piece of advice to William O'Brien, you black-hearted Irish fool, who ever make your appearance at Kingston or Ottawa, your blood will run gold. Take my advice and go back to your black Irish home. I will be there in less than forty-eight hours."

This letter, said Mr. O'Brien, portends something dangerous. I don't as a rule care much about threatening letters, but the man who wrote that, is just the sort of fellow who shot at me last night.

Route of the President.

BURLINGTON, May 24.—The Presidential party will pass through this city about 10 o'clock on Friday morning next. It is announced that the train will stop here for a few minutes, and that the President will show himself to the people. The party will go directly through to Prospect House, in the Adirondacks.

McGinnis Received the Pope's Letter.

NEW YORK, May 24.—McGinnis to-day told a reporter, that he had received a letter from the Pope, and that he did not think he should write any reply to the Pope's letter or to Archbishop Corrigan.

LATONIA MEETING.

Results of the Five Horse Races Yesterday.

CINCINNATI, May 24.—The second day at the Latonia meeting brought a fine attendance. The weather was pleasant and the track solid from last night's rain.

In the seven furlongs, W. H. H. won, Tony Pastor second, Faith Thompson third, Time, 1:35½.

For maidens, 3-year-olds and up, the rest were in the rear, and Cast second, Giorla third. Time, 1:52½.

For fillies, 2-year-olds and up, five furlongs, Mirth won, Helen Brooks second, Orange Girl third. Time, 1:04.

In the mile and one-sixteenth, Moore won, Rio Grande second, Lepanto third. Time, 1:55.

For two-year-olds, six furlongs, the start was an exceedingly unsatisfactory one. When the flag fell Ocean and Huntress were beyond the pole, while the rest were in the rear, and Cast second, Giorla third. Time, 1:52½.

Much dissatisfaction was expressed, and it was claimed that it should be declared no race, but the Judges after a short parley declared the winners.

Baseball.

WASHINGTON, May 24.—No game; rain.

CINCINNATI, May 24.—Cincinnati 3, Baltimore 4.

PHILADELPHIA, May 24.—Philadelphia 4, Chicago 2.

NEW YORK, May 24.—New York 4, Pittsburgh 5.

ST. LOUIS, May 24.—Brooklyn 2, St. Louis 9.

CLEVELAND, May 24.—Cleveland 12, Athletics 13.

BOSTON, May 24.—Boston 8, Indians 10.

President Will a Fishing Go.

WASHINGTON, May 24.—According to the present arrangements, the President will be at Mount Washington on Thursday evening, taking a special car. Thence he will proceed direct to Saranac Lake, in the Adirondacks. He will be accompanied by Mrs. Cleveland and Colonel and Mrs. Lamont, and expects to return to Washington inside of two weeks.

Arrest of Texas Railroad Robber.

AUSTIN, Tex., May 24.—The Chief of Police arrested a man in this city last night, suspected of being one of the train robbers. It is reported that he has made some startling disclosures, which will involve several well-known men, and implicate at least one officer, as having planned and engineered the whole affair from the beginning.

Treasurer Hyatt Qualifies.

WASHINGTON, May 24.—Treasurer Hyatt qualified this morning and formally assumed the duties of his new office. A large force of clerks are engaged in counting the cash in the Treasury to-day.

Umbrella Co. Blown Away.

PHILADELPHIA, May 23.—Norcom S. Seguin, manager of the Philadelphia Umbrella Company, is reported to have embezzled \$85,000 of funds held in trust by him, and has run away.

Rains Conquering the Fires.

CHICAGO, May 24.—Rains during the past few days throughout the Northwest have extinguished most of the forest fires, which have been so destructive of late.

Yellow Fever in Florida.

WASHINGTON, May 24.—Surgeon-General Hamilton has received official notice of the existence of yellow fever at Key West, but thinks the situation not sufficiently grave to call for action on the part of the government.

The New York British Rejoice.

NEW YORK, May 24.—All of the British steamships in the harbor to-day, were gay with bunting in honor of the Queen's birthday, including the damaged Celtic and Britannic.

Col. Duryea's Death.

NEW YORK, May 24.—General Abram H. Duryea, the old cavalry commander, was stricken down by paralysis this noon. His mind was not affected and the shock is not expected to prove fatal.

Ben Perley Poore Worse.

WASHINGTON, May 24.—The condition of Major Ben Perley Poore is somewhat worse to-night.

District Attorney Brooks.

United States Attorney Brooks leaves to-day for San Diego where he will examine into the cases of three men charged with unlawful entry upon public land. He will also make arrangements to have some captured criminals sold. He says that the Times' smugling sensation is a rehash of an article published some weeks ago in a San Diego paper. Attorney Brooks will, while at San Diego, keep a sharp eye out for one "1000 prominent citizen" who are charged by the Times with smuggling. The attorney fees in that number of cases would make Brooks independently rich, while the Marshal and Clerk would roll in wealth. These dreams, however, are very far from being built upon that fragile foundation known as a Times sensation.

He Talked Too Much.

In the case of Jones vs. Kelley, tried in the Superior Court and submitted to the jury last Saturday, the jury found a verdict for the plaintiff for \$1,000. The plaintiff sued for slanders circulated by defendant, touching her character. Mr. Kelley is pastor of the Episcopal Church in this city, and Miss Jones was a teacher of private classes in French, etc., boarding with his sister, Mrs. Mott, on M street. The plaintiff claimed that he circulated reports damaging to her character for chastity and broke up her classes, and the jury, after hearing the evidence, returned a verdict in her favor, as above stated.—[Fresno Examiner.]

"See here, Garibaldi," said a gentleman who was having his boots shined, "haven't you breathed about enough on those boots? I'm in a big hurry." Garibaldi hastily completes the job, and in response to a dime, says: "Not a cent change." "Well, go and get it." Garibaldi goes and gets two nickels, one of which he reluctantly turns over.

"Garibaldi," says Garibaldi profanely, "ze tam signor in no too big hurry to wait for ze change." —[New York Sun.]

GENERAL NEWS.

Outrage, Tar and Feathers Puget Sound Thievery.

THE MURDER AT THE MILL.

Two Californians Celebrate the Queen in Mounted Polo—McMullin the Pitcher.

Associated Press Dispatches to the HERALD.

ILWACO, W. T., May 24.—The people of this town are endeavoring to-day, to obtain some clue to the perpetrators of a dastardly outrage, and the wanton destruction of a valuable property. Last night, between 10 and 11 o'clock, the occupants of Colbert's scow, Miller, Murray and Ross, were aroused by a body of masked desperadoes, and ordered to dress at once at the points of revolvers. The men dressed as quickly as possible when the maskers immediately set fire to the scow, which was a large lifting skiff loaded with traps. The Webb was also fired.

Mr. Ross was tarred and feathered, and taken away in one of a swarm of fishing boats that were among the attacking party, and rowed over to Daniel Markham's traps, and forced at the point of a pistol to cut that trap away.

Afterwards he was taken to Graham Brothers' scow off of Sand Island and left there.

Miller was compelled by the same methods to destroy and mutilate as much as possible of Colbert's pile-driver, or in other words abuse the property of his employer. After that he was carried to Sand Island and left with Ross.

Murray was forced to make a small skiff and take a short distance away. The oars were then taken out and the skiff was anchored and left. A boat returning from the Cape, with their party, picked him up.

THE TOWN ABUSED.

The estimated damage to Colbert's property is \$2000. The fleet of boats continued on up the river, cutting and destroying the web and traps in their way. After that the orders were to separate and disappear in the darkness.

In town here, a blazing scow attracted the attention of some one, who aroused citizens by ringing the school bell. The citizens then rushed out and armed. It was too late. The ruin was accomplished and the miscreants had sailed away.

Ross was told that there were 200 boats engaged in this work. Great anxiety was felt for the fate of Miller and Ross, who did not show up until about 6 A. M. Further trouble is anticipated, and it is feared that if another effort is made to destroy any more traps there will be bloodshed.

THE MURDER AT THE MILL.

Giancoli, the Knifer, Captured and Confessed.

POINT ARENAS, Cal., May 24.—Giancoli, the Italian who killed Wm. R. Heritage here last Sunday night, was captured near Guadalupe to-night, by two men, named Lowrey and Brojones. The prisoner called at a lady's house and asked for something to eat. She gave it to him, and thinking he might be the slayer of young Heritage, she spread an alarm. Meanwhile Giancoli had started to a place called Black Point, taking in a trail leading from the Guadalupe river instead of the road.

Just as he was emerging from the trail into the country road Lowrey and Brojones came along, recognized him, and at once ordered him to surrender. He then gave himself up without resistance. At first he denied all knowledge of the crime, but finally admitted he was the man. He said Heritage knocked him down and was beating him when he drew his knife and stabbed him, but he did not think he had killed him.

PECULIAR POLO.

Two Mounted Players Celebrate the Queen's Birthday.

SAN LUIS OBISPO, May 24.—A game of polo here to-day, was very excitingly played and attracted a large attendance. It was English saddles against California saddles. The challenge came from England and was done to celebrate the Queen's birthday. English used two horses and California one.

Four games were played, English winning one as California two, and at the third when California had the ball with five feet of the goal, time was called and the game decided a draw. It lasted two hours. Several narrow escapes occurred and the horses and men were completely exhausted.

The Great Pitcher.

SAN FRANCISCO, May 24.—James McMullin, of the Pioneer Baseball Club, signed a contract to-day to pitch for the Metropolitans of New York. He leaves for the East to-morrow.

NEW STRIKE AT SAN DIEGO.

Replacing Brickmakers at Elsinore with Chinamen.

SAN DIEGO, May 24.—Two or three days ago the white men employed in the brick yards at Elsinore, in this county, struck for an advance in their wages.

The proprietors of the yards telegraphed to this city for Chinamen to take their places. When the white men heard of the proposed invasion of the Chinese they held a meeting and resolved to allow none of them to go to work.

About a dozen Chinamen then arrived at the depot at Elsinore, but before they could go to work they were waited on by thirty or forty men and boys, armed with guns and pistols, and ordered to get out. They were told that they would be hung if they remained over night, which so scared them that they took the first train for San Diego. Their baggage was treated rather roughly, but otherwise no harm was done and their return fares were paid by the strikers.

New Cause of Pausers' Suicide.

SAN JOSE, May 24.—It now transpires that there was probably a stronger motive for the suicide of W. L. Hauser than his light indebtedness to the New England Insurance Company, as letters have been received here by Sheriff Sweeney from T. A. Davis of Union, Va., charging Pausers with embezzling \$2000 from him. There is reason to believe that Davis had previously written to Pausers, threatening him with arrest if satisfactory settlement was not made.

A BOOMING LOCALITY.

A New and Unique Settlement in San Gabriel Valley.

The vicinity of the Raymond Hotel in South Pasadena is a scene of great activity. Railway grading is proceeding rapidly on several lines of road, the excavation for the basement of the new opera house is going forward rapidly. This must be deep in the rear of the building, to accommodate the large and complete system and machinery of scene shifting.

A large fruit crystallizing establishment has been established on Raymond avenue, between the railroad to Altadena and the California Central. The new establishment is taking strawberries, loquats and other fruits as fast as offered and doing a grand work in making perishable fruit imperishable and valuable. At the rate which this establishment pays for fruit, the business of fruit growing in Pasadena must be very rewarding.

Near the crystallizing factory are about 3,000,000 brick being burned for building purposes, and preparations are going forward for the making of 10,000 feet of cement sidewalk, 10 feet wide. The plan for a grand union depot have been made and the site is located between the present line of the California Central Railway and the new direct line that leads from Raymond to Lamanda Park. This depot will be a very large affair and accommodate all the passengers that will be there concentrated by nine different lines of railroad, of various grades and fashions, including dummy, steam, cable and horse car lines.

The large tract that has been occupied on the east of the Raymond Hotel, and the new short line railway for half a mile, has now been opened to settlement and the Pasadena avenues cut through the tract, adjoins the famous Oak Knoll, which is being laid out by a landscape artist, to rival any of the parks of the United States. It is understood that a depot will be erected on the border of this park on the lands of the Raymond Addition, and that Oak Knoll, with its winding walks and villa plots will be the most unique settlement in California. About \$200,000 are now being expended on the most beautiful spot which is not yet placed on the market. When the Raymond Addition and Oak Knoll are united as they soon will be, they will form one of the finest settlements ever made. The outlook is wonderfully beautiful and it is the intention of the proprietors to excel anything ever developed in the country. Mr. Phillips, the adjoining property owner, will harbor in the settlement the latest and together they are determined to make the combined tracts the bower of beauty of the San Gabriel valley. A beautiful depot will be erected and a large hotel in keeping with the surroundings. A fine house has not yet been selected for this addition to Pasadena, but the proprietors are determined to make the place superior to the old settlement and to all others. The three tracts extend for about a mile and a half east from the Raymond on the beautiful gently sloping bluff that overlooks the Mission, Alhambra, Ramona and Los Robles. This settlement will be an astonishment to the people in the near future.

New Navy of the British Government.

About the time when our new cruisers first touch salt water the British admiralty will have, fully equipped and ready for service, a fleet of twenty-five armor-clads, which will represent the highest development so far in English shipbuilding. Besides these, a considerable number of vessels of less recent construction, but excellent of their kind, like the Polyphemus, will of course form part of the active fleet, and others which are considered as falling short of the requirements of the age will form a reserve force for this purpose of coast and harbor defense.

Of the twenty-five new ships, the total cost of which exceeds \$65,000,000, several are already in commission; others are complete with the exception of their armament; only a few are still in the earlier stages of construction.

Three types of armor-clad ships appear to have been definitely adopted by the Admiralty. At any rate, the twenty-five new vessels may be divided under three heads.

Nine of the twenty-five are turret ships, with an average displacement of about 9,700 tons. The largest of these are the Nile and the Trafalgar, with 11,940 tons, 10,500 horse-power, and twelve guns. The Nile has a main gun with 6,200 tons, 6,000 horse-power, six guns. But the most formidable, probably, are the Renown, Sans Pareil and Victoria, which, falling but little short of the Nile and Trafalgar in size, have a horse-power of 12,000 and a large number of guns, two of which are the 110-ton size. The speed designed for these three ships is seventeen knots. The smallest turret ship Hero carries 45-ton guns and has a speed of only fifteen knots—equal, say, to that of the Atlanta.

The second type of armor-clad is the barbetted ship. Eight of the new vessels are of this type. Their average ton

Forged an Order.

Deputy Constable W. H. Cline yesterday morning received word from his brother at Santa Monica that Chas. Morris was wanted at that place for forgery, he having forged an order for \$32 on Adams & Fitzgerald, sign painters, and sold it for \$4.00. Morris had been drinking heavily, and after visiting San Pedro arrived in this city on his way east. He was captured here by Constable Cline, who took him to Santa Monica on the afternoon train yesterday.

NOTICE OF SALE OF REAL ESTATE
Under Execution.—D. J. Horswell, Jose D. Valencia, James Robertson and E. A. De Camp, plaintiffs, vs. Francisco Ruiz and Ramon Casas, defendants.—No. 3192.—By virtue of an execution issued out of the Superior Court of the county of Los Angeles, wherein D. J. Horswell et al. were plaintiffs and Francisco Ruiz et al. were defendants, upon a judgment rendered the 12th day of November, A. D. 1885, for the sum of \$75,700 dollars in legal money of the United States, besides costs and interest, I have this day levied upon all the right, title, claim and interest of said defendant Francisco Ruiz, in and to the following described real estate, to wit: Situate, lying and being in the county of Los Angeles, State of California, and bounded and described as follows: All the right, title, interest and claim of said defendant Francisco Ruiz, in and to the following described real estate: Situate, lying and being in the county of Los Angeles, State of California, and being a part of the Cienega Rancho, to wit: That portion of the said rancho set off to Antonio Uquides in said rancho particularly described as follows: Being 50 acres, to be measured off and taken from said rancho south of and adjoining the parcel of land heretofore sold and conveyed by said Uquides to said defendant Francisco Ruiz et al. by A. Uquides and Salvador A. de Ruiz, et al. by deed dated July 9th, 1879, and recorded in book 65 of deeds, page 575, records of Los Angeles county, reference being had to said conveyance for a further description of the lands hereby levied on.

Public notice is hereby given that I will, on SATURDAY, THE 18TH DAY OF JUNE, A. D. 1887, at 12 o'clock M. of that day, in front of the Court House door of the county of Los Angeles, on Spring street, sell at public auction for cash in lawful money of the United States, all the right, title, claim and interest of said defendant Francisco Ruiz, in and to the above described property, or so much thereof as may be necessary to raise sufficient to satisfy said judgment, with interest and costs, etc., to the highest and best bidder.

SUMMONS.

IN THE SUPERIOR COURT OF THE State of California, in and for the county of Los Angeles, do hereby summon C. J. Field, plaintiff, vs. Gustave Miller, defendant.

That you are summoned to appear in the Superior Court of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles, in the office of the Clerk of said Superior Court.

The People of the State of California send greeting to Gustave Miller, defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons, if served within the county; or, if served elsewhere, within thirty days, or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to obtain the judgment and decree of court that you have no estate or interest in the land and premises described in the complaint herein, to wit: Lots 6 and 8, block 14, city of Los Angeles, Fairmount Tract, and quieting title and partition in the plaintiff, etc., and for cost of suit. Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint, as above required, the said plaintiff will apply to the court for the relief therein demanded.

Given under my hand and the seal of the Superior Court of the State of California, in and for the county of Los Angeles, this 21st day of April, in the year of our Lord one thousand eight hundred and eighty-seven.

Cheap Coal and its Consequence.

Dr. Congar, who has recently re-

turned from a very thorough explor-

ation expedition in Southern Utah,

says that the gas coal mines in that

region are extensive, and the coal

itself of an excellent quality for fuel

purposes. The completion of the

projected extension of the Utah

Southern railroad to Los Angeles

would enable consumers here to get

coal from those mines at the rate of

about five dollars per ton. This

would be one of the most beneficent

boons that could be conferred upon

our city and section. It would mean

the building up of great and diversi-

fied manufacturing here, and would

make Los Angeles one of the most

important centers in the world for

the reduction of ores. Our city is

backed by a great number of the

richest and most extensive mining

districts on this coast. Many of

these have languished because the

ores have to be hauled to such dis-

tances as to render the operation of

all but the richest ledges unprofit-

able. Reduction works in operation

in Los Angeles would enable the

owners of ledges carrying small per-

centages of metal to successfully work

their mines. Besides the districts al-

ready opened in our back country, the

projected railroad would pass through

a mineral region of vast extent, in

which are many districts that would

be found to be worth working. It

would create new activity in Pioche,

Belmont and all that region of South-

eastern Nevada, which is known to

be rich in ores, that can only be

worked profitably at reduction works

accessible at reasonably cheap rates

of freight. Cheap coal in Los An-

geles, and direct transportation of ores

from our tributary dominant mines,

would render the establishment here

of such reduction works a most invit-

ing enterprise to capital. No one

who knows anything of the great

mineral treasures of the region

through which this projected exten-

sion is to pass, has the slightest doubt

of the vast amount of traffic in store

for the first railroad that makes a

through connection with our city.

The inducements to extend the Utah

Southern to tidewater here, are so

great that we are disposed to believe

that the Union Pacific company,

which virtually has control of the

Utah Southern, will before long

make the extension. It would at

once give the Union Pacific a footing

on this coast and the assurance of a

vast and profitable intermediate traf-

fic. The distance from the present ter-

minus of the Utah Southern to Los

Angeles is only about 700 miles.

Indeed, by the old wagon road

from this city to Salt Lake,

the distance is only about 800 miles.

The superficial distance from Ogden

to San Francisco is about 850 miles;

but reckoned by railroad miles—that

is, allowing for the heavy grades and

curves—Ogden is nearly 1400 miles

from San Francisco. At the present

time, a mine owner, in say Pioche,

who has ore to ship to the San Fran-

cisco reduction works, has to pay

freight upon at least 1600 miles of

railway carriage. With the Utah

Southern coming to Los Angeles, he

would only have to pay for about 500

miles of railway transportation.

These figures show the value of the

projected road. From Ogden to Los

Angeles by the present railroad route

the distance in "railroad" miles is

of the Utah Southern at Bullionville.

After our coast range of mountains

has been passed a railroad track can

be laid the entire distance without

the slightest difficulty of grade. A

few years ago Colonel Joseph U.

Crawford, the original engineer of the

Los Angeles and Independence rail-

road, drove over the whole ground to

Beaver City in a buggy, and on his

return reported that a natural rail-

road bed could be secured the entire

distance. This fact would make the

cost of the road a comparatively

cheap affair, and therefore enhance

the reasons for building it. But out-

side of all the alluring facts we have

stated above, there is an imperative

necessity urging the Union Pacific to

secure a footing on this coast; and

the route we have mapped out offers

to that corporation the shortest and

cheapest line of road within its reach.

With a Pacific Coast outlet such as

this would give to that company,

there would be no difficulty in its

securing from the Southern Pacific as

favorable terms of wheeleage from

here to San Francisco as the Atch-

ison, Topeka and Santa Fé Company

enjoys.

A New Era for Our City.

The City Council have taken the

right course in regard to paving the

streets. They have required that

Main street, from Alameda to Third,

shall be paved with granite blocks,

and that beyond that to Ninth street

it shall be paved with bituminous

rock. The latter is to be laid also

from Temple Block to Ninth street,

on Spring. We are so anxious to see

the work of paving our streets com-

menced and carried out that we

would hardly cavil at any kind of

pavement that should be adopted.

The granite is, of course, a good, du-

rable pavement. The greatest ob-

jection to it is the noise of vehicles

passing over it, and the fact that

it has a tendency to founder

under heavy loads. The bituminous

rock pavement, as adopted, is,

on the other hand, noiseless and easy

on horseflesh. The pleasure of driv-

ing over it is one of its strongest

recommendations. Whether this

pavement will resist the traffic upon

our city and section. It would mean

the building up of great and diversi-

fied manufacturing here, and would

make Los Angeles one of the most

important centers in the world for

the reduction of ores. Our city is

backed by a great number of the

richest and most extensive mining

districts on this coast. Many of

these have languished because the

ores have to be hauled to such dis-

tances as to render the operation of

all but the richest ledges unprofit-

able. Reduction works in operation

in Los Angeles would enable the

owners of ledges carrying small per-

centages of metal to successfully work

their mines. Besides the districts al-

ready opened in our back country, the

projected railroad would pass through

a mineral region of vast extent, in

which are many districts that would

be found to be worth working. It

would create new activity in Pioche,

Belmont and all that region of South-

eastern Nevada, which is known to

be rich in ores, that can only be

worked profitably at reduction works

mineral treasures of the region

through which this projected exten-

sion is to pass, has the slightest doubt

of the vast amount of traffic in store

for the first railroad that makes a

through connection with our city.

The inducements to extend the Utah

Southern to tidewater here, are so

great that we are disposed to believe

that the Union Pacific company,

which virtually has control of the

Utah Southern, will before long

make the extension. It would at

once give the Union Pacific a footing

on this coast and the assurance of a

vast and profitable intermediate traf-

fic. The distance from the present ter-

minus of the Utah Southern to Los

Angeles is only about 700 miles.

Indeed, by the old wagon road

from this city to Salt Lake,

the distance is only about 800 miles.

These figures show the value of the

projected road. From Ogden to Los

Angeles by the present railroad route

the distance in "railroad" miles is

every time he exposes himself to the

public gaze. He is in effect a grand

state prisoner. He is forced to con-

fine himself in the strongholds of his

guarded palaces, under the penalty

of forfeiture of his life if he gives his

subjects a chance to pop at him. We

should say that empire and rule at

such a cost was a mockery and a de-

lusion.

THE returns in the office of the Sec-

retary of State show that amendment

No. 3 was carried by a majority vote

of 3353. Several counties have failed

to send in their returns, and the Sec-

retary of State will make out his

official certificate of the result with-

out waiting longer. This settles the

matter, and hereafter cities having

People's Store.

To-day we will place before our patrons a

list of specialties that have never been ex-

celled. They consist of the most desirable

goods in our house, and each one of them a

gem.

Our first specialty will be a line of chil-

dren's pique aprons, with sleeves. They

are made of very heavy goods and are

in an excellent manner. We have just 75

of them, and all will be sold at the low

price of 25c each, worth from 30c to 50c.

Our second is a gent's embroidered vest

and plain striped slipper at 50c a pair.

We have seen these same goods sold at 75c

and are well worth that amount.

We have also a line of boys' and girls'

suits, in all the new and desirable shades

of stripes and plaids at 12 1/2c a yard. Never

sold for less than 20c.

Our fourth is a shelf oil cloth, for deco-

rating closets and pantries, at 5c a yard. Sold

all over for 12 1/2c.

Our fifth is an extra heavy unbleached

yard wide muslin at 1/2c a yard. Sold

all over for 10c.

Our seventh is a line of 42-inch, double

fold colored hangings, at 10c a yard. They

are good value at 20c a yard.

Our eighth is an all silk, open work

mit, we offer it at about one third their

real value, 10c a pair. Come

early before they are all sold.

Our ninth is a lady's, colored pure lisle

thread hose at 25c a pair, and worth 40c.

Our tenth is a lady's Berlin, lisle, six

button length glove at the sale, worth 20c.

Our eleventh is children's summer

IN REBUTTAL.

Testimony Taken in the Congressional Contest.

A. Sepulveda testified that he was at the Seventh precinct and at the Depot precinct on election day. He knew Garcia and had read his testimony but he had not solicited him to vote, nor in company with Mr. Bidderrain had he offered any money to Garcia or attempted to influence his vote any way. He did not take him to a room and give him money. Nor had he paid any money on that day to any other person for the purpose of influencing his votes. He did not see nor was he present when Tom McCaffrey had offered money to any one to vote. He did not tell any one that he was peddling a ticket that carried Wadsworth's name on it.

Cross-examined: Did not give Garcia a ticket. I simply asked him if he had voted and he said no. I then left him. Bidderrain was with me at that time. I gave no person any money on that day. I did not go up stairs with Garcia on that day I did not see anybody give him any money. I did not go up any stair case into any room near the depot.

Robert K. Dominguez testified that he had enrolled the name of Luigi Garofalo. He had asked witness to sign his name to the affidavit. B. Solomon was present and also an Italian boy. He did not tell him that the paper was a naturalization paper. Garofalo said he had been registered and naturalized in Oakland. He said he could not sign his name and asked the Italian boy to write his name and witness copied it. He swore to the facts stated in Charles Schroder's testimony. Witness knew Pedro Garcia. He did not influence him to give testimony for respondent. Witness knew Banegas, but did not influence him in giving testimony in the case. Did not tell him he would get himself into trouble if he gave it.

Cross-examined: Garofalo speaks English to some extent, and answered questions at that time quite satisfactorily. I asked him questions as to his qualifications and he answered them quite satisfactorily. He talked Spanish quite thoroughly. He said he had been naturalized in Oakland eight years before in some court. He said he had his papers at his house.

Vicente Sanchez testified that he was at the Depot precinct on election day and that he knew Pedro Garcia. He did not ask him to vote nor did he give him a ticket. He did not pay him \$2 to vote nor to any one else.

Cross-examined: Was at the depot all day. Gave no money to anybody that day. Was there seeing that those who voted the Democratic ticket did vote and giving tickets to those who wanted them. I received no money except for eating which was given me by Bidderrain, but I got no money to buy votes.

Jose Romero testified that he was at the Depot precinct and that he knew Roberto Valencia. Did not tell him that he had plenty of money to buy all the Republicans.

Cross-examined: Was helping the Democratic party by my influence. I also helped one or two Republicans. Gave out no money only my expenses. Received no money on that day. Did not interfere when Antonio Lavea was arrested. Did not give him a cent. Did not know he was arrested until he got back. Did not state that I had given him money in the presence of Capt. Darcey and Mr. Appel. They are parties I never had anything to do with. Did not hand him any money that day.

R. F. Sepulveda testified that he was present at a conversation between Banegas and R. Dominguez, when Banegas refused to go to Appel's office because he had seen no person receive money except one.

Joquin Villalobos testified that Jose Lopez told him that he would give him \$10 to speak and use his influence for the Republican party. The money was given to Villalobos for safekeeping. The agreement was torn up but witness only received \$1.50 of the money. He took it to a Democratic club at that time. Lopez was working for the Republican ticket.

Mariano Asevedo demanded his witness fees and testified that he did not solicit any person to vote for Joseph D. Lynch. He had been arrested by Capt. Darcey, but witness did not know the reason of his arrest. He had not solicited any person to vote. He did not solicit Ayala nor Lavea to vote. He was a Republican and had worked for the ticket through and through. Adjourned until 10 o'clock this morning.

The Cleary-Manning Fight.

Billy Manning of Los Angeles, and Tom Cleary, the well known San Francisco pugilist, have at last succeeded in making a match, and will fight to a finish for a purse of \$500, the winner to take \$300 and the loser \$200. The fight will take place sometime within two weeks, at a place to be selected somewhere outside of the city. The fight will be, as the articles of agreement read, with skin gloves and the referee to select three men from the audience, and if any of the committee of three think that the fight is a hippodrome, the money will be returned to the subscribers of the purse. Manning and Cleary have met twice before in the pugilistic arena, and each time Cleary has after a hard and satisfactory battle, proved the winner. Manning thinks that as this fight will be with kid gloves he will stand a much better show and is confident of winning. Manning is training at Monrovia, and Cleary will make his headquarters either at Santa Monica or the race track.

Overland Shipments for April.

The following is the official statement of Eastern overland freight shipments, and the points from which merchandise was forwarded during April, via the Southern Pacific Company.

| POUNDS. | Value. |
|---------------|------------|
| San Francisco | 13,270,520 |
| Oakland | 6,678,540 |
| Los Angeles | 6,678,540 |
| Colton | 1,247,000 |
| Sacramento | 854,340 |
| San Jose | 22,130 |
| Stockton | 60,830 |
| Marquette | 22,130 |
| Total | 27,751,740 |

This shows pretty well which way the wind blows. No place but San Francisco comes within millions of Los Angeles, and San Francisco only beats us on shipments of coffee, sugar and other articles which come to them from foreign countries. Our shipments are products of Southern California.

Marriage Licenses.

The following named persons were yesterday licensed to wed: Howard H. Crawford and Carrie L. Ferguson, Jas. G. Madden and Etta May Snodgrass.

Ship Arrivals.

Yesterday three arrived at San Pedro five coal ships, two lumber ships, one lumber bark and twelve schooners. This is pretty good for one day.

SKIPPED.

A Night Clerk Leaves With Considerable Wealth.

The position of night clerk in a hotel has been disgraced and thrown into disrepute by the action of night clerk McGowan, of the St. Charles Hotel. That individual made himself a much sought for person in a very short space of time, for it is not often that two nights of service will endear the night clerk to the proprietor in such a manner as did McGowan. His career was short in such a responsible position, and there are those who wish it had been shorter. McGowan formerly worked in the capacity of waiter at the Depot Hotel, from which place he went to the St. Charles Hotel, where he served the guests at the table for about two weeks. The position of night clerk, becoming vacant, he was given the chance of distinguishing himself on Sunday night. He served faithfully Sunday night and on Monday night he was left in charge of the hotel and its contents at about midnight. Shortly after John Dargane, a skilled mason, who was on his way to Pasadena, deposited with McGowan a gold watch valued at \$250 and \$55 in coin and was shown to the room. At 2 o'clock in the morning John Dargane, of Fresno, and Samuel D. Meriwether entered and Baldrado gave him \$300 in gold to keep until morning. These amounts proved too great a temptation to McGowan, who evidently thought the hotel could take care of itself, and who disappeared from view long before the time for the earliest rise to waken, taking with him beside the amounts mentioned about \$200 which had been left in the drawer for change. Mrs. Newlands, wife of the hotel, and who was the first to discover the absence of McGowan. She awoke rather early, and discovered that the lights had not been put out, and a further investigation revealed the fact that the festive night clerk was gone. The matter was placed in the hands of the Sheriff and of the police, but no trace of the clerk had been found up to a late hour last night, although it is expected that he will be gathered into the fold before his course has run very much longer.

Switch Tracks on First Street.

The property-holders and persons doing business on First street and others passing through that thoroughfare are greatly opposed to the laying of switching tracks across that street. There is no opposition to the main line for passengers and the main line for freight, but they do object to the use of switching tracks across that street as it would impede travel and endanger the lives of passengers by street cars and by carriages. They state that there is ample room on the half mile front which the railway company owns for the switching of cars, so that First street can be kept free from danger.

The plan of eight tracks for switching purposes on the street would be a serious drawback to the safety and prosperity of the people of the city. This is a question for the Mayor and City Council to decide. Mayor Workman is engaged in an examination of the matter and will probably make some arrangement with the Chief Engineer, Col. Ferris, of the California Central, for the safety of travel on that street.

It is understood that Col. Ferris considers these tracks a necessity, and rather than forego their use will build a viaduct above them for all street travel. This structure would be a safeguard and probably satisfactory to the people. But a plan of the elevation of the viaduct and the effect it would have on the property adjoining the street should be considered before reaching a final conclusion.

School Exhibition.

The undergraduates of the Los Angeles College (the Hanna College) will give an entertainment in Hazard's Pavilion, corner of Fifth and Olive streets, on Friday evening, June 3d. Vocal and instrumental music, recitations, selections from "Ermine," with a select three men from the audience, and if any of the committee of three think that the fight is a hippodrome, the money will be returned to the subscribers of the purse. Manning and Cleary have met twice before in the pugilistic arena, and each time Cleary has after a hard and satisfactory battle, proved the winner. Manning thinks that as this fight will be with kid gloves he will stand a much better show and is confident of winning. Pullman Passengers.

The following passengers left yesterday on the 1:30 train: L. M. Waters, A. J. Hechtman, Mr. Thompson, Wm. Crittenden, Mr. Brady, Mr. Holmes, Mrs. W. G. Hill, F. G. Ferrand, Mrs. C. A. Hunt, S. Chapin, Mr. Gardner, O. S. McFarlane, G. A. Cook, Mr. Abernethy, D. McFarlane.

The following left on the 7:30 train: Mr. King, P. Whitmer, Mrs. A. L. Welch, J. Keenan, Mr. Chamberlain, A. S. Hallide, W. J. Michelson, Mrs. Hopkins, M. H. Castle.

"I Don't Want Relief, But Cure," is the exclamation of thousands suffering from Catarrh. To all such we say: Catarrh can be cured by Dr. Sage's Catarrh Remedy. It has been used in thousands of cases; why not yours? Your physician is in delay. Enclose a stamp to World's Dispensary Medical Association, Buffalo, N. Y., for pamphlet on this disease.

An Important Arrest. The arrest of a suspicious character upon his general appearance, movements or companionship, without waiting until he has robbed a traveler, fired a house or murdered a fellow-man, is an important function of a sheriff detective. Even more important is the arrest of a disease which, if not checked, will blight and destroy a human life. The frequent cough, loss of appetite, general languor or debility, pallid skin and prostration of the system, are the forerunners of pulmonary consumption, which is promptly arrested and permanently cured by Dr. Pierce's "Golden Medical Discovery." Sold by druggists.

Weak lungs, splitting of blood, consumption and kindred affections, cured without physician. Address for treatment, with testimonials: World's Dispensary Medical Association, 603 Main street, Buffalo, N. Y.

Better Accommodations.

More Pullman palace cars are now arriving via the Santa Fe route, which are to be used between Los Angeles and Kansas City to accommodate the increased traveling daily emigrant tourist cars direct from Los Angeles to Kansas City.

For the information of the trade generally we append copy of a letter from Captain Theodore C. Tracie, who was for ten years connected with the United States Internal Revenue service, and was thoroughly familiar with the methods of distillation pursued in Kentucky and elsewhere. In his capacity of United States Internal Revenue Agent, in charge of the Division of Kentucky and Tennessee, he made frequent examinations of distilleries, and the statement made by him is entitled to high consideration:

LOUISVILLE, KY., January 1, 1887.—Mr. Robert F. Tilford, President of the Belle of Nelson Distillery Company—Dear Sir: For several years it was my duty as Internal Revenue Agent to examine the distilleries in Kentucky and other States. As I reported, a few years ago, after making an examination of the Belle of Nelson distillery, I found it to be a pure and honest distillery, and the product was of the highest quality. The proportion of yeast and malt to corn used in the formula was about 10 per cent, which made the product very expensive, but it produced a whiskey which is all you need in purity, smoothness and incomparable flavor, having no superior in the State. I can heartily endorse the high encomiums which have been passed upon this well known whiskey for many years. Yours truly, THEODORE C. TRACIE, Late United States Internal Revenue Agent.

Electro-Magnetism

THE NEW MEANS OF CURE—DR. E. Robbins' Electro-Magnetic Institute, corner of First and Spring streets (entrance on First street), is now fitted up, at considerable expense, with everything that is necessary to cure chronic and so-called incurable diseases, by the Electro-Magnetic apparatus in the world. Turkish and Russian Baths; also Electric Sulphur and Sea Water Baths. Dr. Robbins has had several years' experience in the Australian Colonies, San Francisco, Salt Lake City, Denver, and four years in Los Angeles, and hundreds of leading citizens can testify to the wonderful effects of electricity being administered in chronic diseases when all else had failed, and therefore all persons suffering should register their names, and will stand in good hope. After every medical treatment the patients are given the "Massage" Treatment by persons of their own sex.

The Doctor diagnoses diseases without explanation from the patient, fluently and accurately. His office hours are 9 A. M. to 5 P. M., 7 to 9 P. M.

BELLE OF NELSON DISTILLERY COMPANY.

OFFICE—NEW HOPE, NELSON CO., KY. MAIN OFFICE—123 and 125 EAST MAIN ST.

LOUISVILLE, KY., January 1, 1887.—The letter before is published for the information of Druggists who sell alcoholic liquors. Dr. D. W. YANDELL, eminent as a Surgeon and Physician, and only in the United States, but in other countries, recently addressed the letter, of which the following is an autograph copy, to a medical friend in Philadelphia. The letter tells its own story:

LOUISVILLE, KY., December 1, 1886. My Dear Doctor—In answer to your inquiry as to the comparative value of brandy and whiskey in therapeutics, I have briefly this to say: After a long and very careful comparison, at the bedside, of the effects of the best Cognac Brandy and the best Kentucky Whisky, I am satisfied that the action of the latter is as speedy, pleasant and enduring as that of the former. There are, as you already know, many fine whiskeys manufactured in this State under different brands. Among them I may name the BELLE OF NELSON as being thoroughly well made, honest, straight and mellow, and for these reasons being specially fitted as a remedy where alcohol is indicated.

Always faithfully yours, D. W. YANDELL.

PORT BALLONA.

The Future Harbor of Southern California

THIS IS THE OCEAN TERMINUS OF THE CALIFORNIA CENTRAL RAILROAD, OF THE Atchison, Topeka and Santa Fe system, who are under contract to lay five miles of side track. The shortest railroad line between the Atlantic and Pacific Oceans.

PORT BALLONA is situated on Santa Monica Bay, only thirty minutes' ride by rail from the City of Los Angeles, with trains to begin running every 3 hours in the day early in July. Property can be purchased now at a much lower figure than when railroad and steamships are brought together. PORT BALLONA has two main avenues, one 100 feet and one 80 feet wide, with all other streets 60 feet. Residence lots are 40x150, and business lots 25x100 and 25x150 feet. The residence property is at an elevation of from 50 to 75 feet above tide water thus affording a most magnificent view, extending from Point Duma to the San Jacinto Mountains, and from the San Bernardino Mountains to Santa Catalina Island, in the blue Pacific, and with a Beach unsurpassed on the Coast.

The Beautiful Lake of Ballona

Is one of the greatest features of the place, affording at all times a perfectly safe and pleasant place for sailing and boating of all kinds, and teeming with Fish and Water Fowl. There is also a never-failing Spring of Pure Sulphur Water, and both sulphur and salt water bath-houses are already in course of construction.

Water will be delivered in iron pipes in front of each lot under good pressure.

Lots are now on sale, and maps and all other information can be obtained from

Ballona Harbor and Improvement Company,

Room 6, Office M. L. WICKS, Cor. Court and Main Streets.

LOTS ONLY \$200 { MELROSE. } \$325 CORNERS

DO NOT DELAY, BUT SEE IT AT ONCE!

This beautiful tract adjoins the city on the west; the view is charming; the air and water pure; the drainage perfect, and all surroundings aid in making it the place for beautiful homes and fine residences. The new dummy road to the Ostrich Farm runs through the tract, and a 5 cent fare is guaranteed. Water is piped to every lot. Certificates of title and map given with every lot. Terms easy. Lots 60x155. Free carriages will run from the office of the Special Selling Agents at all times of the day. Terms—One-fourth cash, balance in 6, 12 and 18 months at 8 per cent. interest. All conveyances will be signed by S. K. Lindley, trustee for owners.

TEN ACRES ENOUGH!

THE FAMOUS McDONALD RANCH, NOW KNOWN AS

BROAD ACRES

IS ON THE MARKET IN TEN-ACRE LOTS.

NO NEED OF IRRIGATION—SURFACE OR ARTESIAN WATER CAN BE HAD ON EVERY LOT. Only 8 1/2 miles from Los Angeles and 3 1/2 miles from Compton, midway between Ballona and San Pedro harbors. No frost. No failure of crops—\$50,000 income last year from crops. One-quarter of the present crop goes to the purchaser. This land is particularly adapted to the raising of STRAWBERRIES and other small fruits. The right of way for a branch of the Atchison, Topeka & Santa Fe Railroad has been pledged through this and adjoining land. Price lower than any tract on the market, being as low as \$50 per acre.

TERMS.—One-third cash, balance running for four years at 8 per cent. per annum.

Free Carriage from the Office, No. 23 North Spring Street.

FRANK McCOYE, Agent.
